Ordering Your Digilent Analog Discovery Student Bundle

The first step in ordering from Digilent is to create an account using your @uwplatt.edu email address. Once this is completed, apply for academic pricing. There are significant educational discounts and it is important to start the verification process as soon as possible. Information is found at: https://store.digilentinc.com/for-education/academic-pricing/

IMPORTANT

*It can take a couple of days to verify and academic account, so begin immediately*

To order, go to: https://store.digilentinc.com/

1. Search for the Analog Discovery 2 Student Bundle. Add this to your cart.

2. A digital multimeter capable of measuring voltage, current, and resistance will be necessary for this course, also. While these can be obtained anywhere, there is an adequate multimeter available from Digilent.
   a. If you want the simplicity of one stop shopping, search for Digital Multimeter. Add this to your cart.

3. At this point, your cart should look like this:

4. When you proceed to the check-out, the site may try to upsell you. Click on ‘No, thanks’ in the lower right-hand corner.

5. Select your billing and shipping options and place your order.
